Mail Orders Promptly Attended to.

CLARY'S, Santa Rosa

FARM AND GARDEN

CHINESE CABBAGE.

Unfamiliar but Interesting Vegetables That May Prove Useful. Cabbage is a most important vegetable in the estimation of the Chinese, but it is not our cabbage or any of its many forms, such as cauliflower, broccoli, kale or Brussels sprouts, but oriental species, now known by botanists as Brassica chinensis, B. pekin and B. juncea. The latter is more a mustard than a cabbage and is much used as a garnish on certain raw for the pungent flavor. The cross. Good commercial varieties of the Chinese cabbage were brought to New York's "China

CHINESE CABBAGE PARCHOL.

town market at a cost of 15 cents per pound. The two heads weighed some thing over three pounds together. These cabbages had been received by express in barrels from the vicinity of New Orleans, where, we are told, they are largely grown during the winter by a Chinese syndicate. Almost every large city has its group of Chinese truckers near by, growing the vegetables demanded by their compatriots. New York's supply comes chiefly in summer from Long Island, but in winter the south is depended on.

These cabbages are much used as an addition to soups and meat stews, evidently being added at the last moment, as they are so lightly boiled that the green color of the leaves and the crisp, pungent mustard-like flavor are well retained. Thus prepared by competent Chinese cooks they are exceedingly palatable and doubtless more digestible and nutritious than our species as generally cooked. There are considerable wastes in overcooking certain vegetables.

These Chinese cabbages are on sale all through the year and are comparatively cheap in summer, as they are easily grown. Panchol appears to be the favorite. It does not head, but has many smooth, dark green, wavy leaves, with broad ribs springing from the root.—Rural New Yorker.

Observe Before Reheating.

Does the horse's shoe fully cover the entire lower border of the wall, or is it too narrow or fitted so full on the inside that it has given rise to interfering, or has the shoe been nailed on crooked, or has it become loose and shifted? Is it too short or so wide at the ends of the branches as not to support the buttresses of the hoof? Does the shoe correspond with the form of the hoof? Are the nails distributed so as to interfere as little as possible with the expansion of the quarters? Are there too many? Are they too large? These are points the horse owner should ascertain in order that any faults observed may be corrected.

Magnifica Tomato.

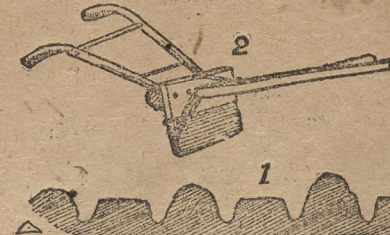

The New Jersey experiment station has a tomato, Magnifica, which is a cross between Ponderosa—a standard, very large variety—and Magnus—a fine pink fruited sort. The cross has been carried through three seasons and is considered very desirable in form and quality.

The Newly Bought Hogs.

Newly purchased hogs should be carefully examined for vermin, and they should not be turned with the herd until they are known to be free from these pests.

Covering Potatoes.

When we plant potatoes, says an Ohio Farmer correspondent, we furrow with a plow drawn by two horses. When the furrows are made there are planks in half of the space and the other half are level (Fig. 1). When covering we use what we call a scraper. (See Fig. 2) It is made of a plank, tongue, handles and several braces and bolts. The length of the plank

TO COVER POTATOES.

should be about twice the distance between the rows. The plank should have a strap of iron at the bottom in front for a cutting edge and to prevent wear. The tongue should be fastened to the plank at right angles and securely braced. The handles, which may be taken from an old plow or walking cultivator, should also be fastened and braced to the plank. We let each horse walk in a furrow, but it is better to use a long doubletree or shafts and but one horse, so the potatoes do not get moved and trampled. The scraper carries some ground ahead of it, which it pulverizes.

LOOKING THE MERE. The main thing is to cool the milk quickly to a temperature of 59 degrees or less, and it would pay the dairyman to provide ice for this purpose. In driving through the country in the early morning you will observe near the well at different farms a can of milk placed in a half barrel, where there is not room for more than a couple of pails of water, which would not be sufficient to properly cool the milk, and unless this is quickly done the germs that may have got into it will have a chance to develop before it gets cooled to that point where their growth is retarded.—J. G. Moore, Wisconsin.

HORSES AND HORSEMEN

The present horse market looks awfully good to the man up a tree. Thousands of four-year-olds that are not yet "hard horses" in the language of the trade, and therefore not fit to turn to work in city streets, are being sold each week in all the great marts, a great many three-year-olds are being marketed, and even two-year-olds are passing through the auction sales at all of the leading centers of trade.

The German coach stallion Arnulf is owned by a company of farmers in Monroe county, N. Y. John G. Coleman, who manages the horse, sends Rural New Yorker the following facts: "He is owned by the Hamilton Horse Stock company and was purchased by them June 1, 1905; price \$3,000. The company is composed of fifteen mem-

GERMAN COACH STALLION ARNULF.

bers, each with a share of \$200. It is organized with a president, John Martin; secretary, D. R. Singleton; directors, five in number, John Gascoigne one of the directors and managers. The horse is kept by Gascoigne at so much a year. In selecting that breed we thought we could improve the stock for general purposes and get some heavy coach horses. They are better travelers than the Percheron, more active and heavy enough for all farm purposes. His weight now is 1,475 pounds; he stands 16 1/2 hands high, a beautiful brown in color. He is a very active horse, but kind and gentle as far."

Keen Horse Market.

Every good horse that comes to this market, whether he is a saddle horse, carriage horse or some other type of harness horse, is more eagerly sought and sells for a higher price than at any period in the history of the New York horse market. The same market conditions exist now that have obtained all winter. Dealers continue to scour the breeding districts from Maine to Georgia and from the Atlantic coast to the far northwest in search of suitable material for this market, and still the demand exceeds the supply many times over, writes the New York correspondent of Breeder's Gazette.

Light Harness Horse Association. These gentlemen recently met at Dallas Texas Light Harness Horse association, with Colonel Henry Exall president and J. J. Miller, Dallas, secretary-treasurer. Initiation fee \$5 and annual fee \$5. Colonel Exall in his address advised horsemen not to let the temptation of a price part them from their very best, but to keep it for breeding. He believes better prices are in prospect than for many years past.

The Morgan Horse.

During the meeting of the Vermont Morgan Horse Breeders' association at Middlebury, Vt., Mr. Rommel of the national bureau of animal industry outlined the proposal of the federal government relative to the establishment of an experimental station at Burlington for the purpose of breeding a type of the Morgan horse that is demanded by American gentlemen. He paid Vermont a splendid compliment in saying it was his personal opinion that outside of Kentucky no handsomer or more finished horses are to be found in this country than there.

The remarks of several speakers were unanimous that the demand today is for a type of horse embodying the characteristics of the early Morgan, with the same firm endurance and beauty, but a trifle heavier and fifteen and one-half hands tall rather than under that height.—Horse World.

Opportunity Speaks.

YES, I am Opportunity. But, say, young man, Don't wait for me. You buckle down. To win your crown And work with head And heart and hands As does the man Who understands That those who wait, Expecting some reward from fate—Or luck, to call it so—Sit always in the way back row. And yet— You must not let Me get away when I show up. The golden cup Is not for him who stands With folded hands, Expecting me To serve his inactivity. I leave the active mind, The seeing eye, The ready hand That grapples me passing by And takes from me For good and all. For I am Opportunity. Strong and bold, He does not wait. Out of the treasures I possess. Oh, yes, I am Opportunity! I'm great, I'm sometimes late, But do not wait For me. Work on, Watch on, Good hands, good heart, And some day you will see Out of your effort rising Opportunity. —Success.

An Immense.

"Mr. Cadeby never pays the slightest attention to flattery." "No," answered Miss Cayenne. "It would be impossible to devise any form of flattery that would correspond to his good opinion of himself."—Washington Star.

PURE BLOOD IS VITAL

Not everyone realizes the vital necessity of keeping the blood pure at all times. Impure blood not only causes various derangements and inability to perform one's work well, but gives a ready welcome to all germs of disease with which it comes in contact. It is the rankest extravagance to allow the human blood to remain in an impure or impoverished condition. "Our Standard Remedy" is the safest, purest and best blood purifier on the market to-day. It is a new remedy, a purely vegetable preparation composed of roots, barks and herbs, and contains no calomel or other injurious or metallic drug. 204 doses for \$1, with a written guarantee that your money will be refunded if you are not cured of all troubles caused directly or indirectly by bad blood. You can purchase this wonderful new remedy at Clewe's. John McNeil, sole agent for Sonoma County, Ohm's Sulphur Springs, Sonoma.

This paper is kept on file at all the leading advertising agencies in San Francisco where contracts may be made for it.

FRIDAY, JULY 13, 1906.

BOND ELECTION

As is proven by the result, there was more opposition to the \$7000 proposition for the high school than was apparent on the surface.

Out of a voting strength of 754 votes in the district, only 185 votes were cast; 116 for and 69 against the bonds. The two thirds majority required by law was thus not obtained and the proposition was declared lost.

The trustees will have a meeting to-morrow to discuss plans for the future. There seems to be no doubt that a commercial course will be made a part of the work in the future.

SONOMA VALLEY SCHOOLS

At a meeting of the Trustees of Sonoma Grammar School held last Saturday, the former teachers were all unanimously re-elected, namely, Principal, W. C. Nolan, Miss Alice Humphreys, 5th, and 6th Grades; Miss Florence Murphy, 3rd, and 4th Grades; Miss Minnie Cooke, 1st, and 2nd Grades. Miss Lottie Howard, who taught in Huichica last term, was elected to teach the Flowery District school for the ensuing school year.

Mrs. J. W. Gibson is the new teacher in Glen Ellen Dist.

Miss Susie Long was re-elected to her old position in San Luis where school will open on July 30.

Mrs. W. C. Nolan was chosen to instruct the youths of Watmaugh district, recently established. Mrs. Nolan has an excellent reputation as a successful teacher and the trustees are fortunate in securing her service.

Geo. Laux Promoted

It is with pleasure that we chronicle the success of another Sonoma boy in his chosen vocation. Geo. Laux, son of Mr. and Mrs. H. Laux, after a few years work with the R. R. Co., He has steadily risen until he is now foreman of the yards in Oakland at a very remunerative salary. He is receiving the congratulations of his many friends.

THE NOLAN CASE

The County Board of Education on Monday set the date for the hearing of the charges made by Dr. A. E. Byron against Principal W. C. Nolan for Tuesday, July 17. Attorney William F. Cowan and John A. Barham called upon the Board of Education Monday and there was a consultation as to the mode of procedure. Subpoenas will be issued for the witnesses both sides require.

A JOLLY PICNIC

The Card Club and a few invited guests chartered the Union Stable bus last Sunday and drove to Graham Canon, and picniced "neath the shade of the giant redwoods and quaffed of the sparkling cool spring water." A long list of luscious edibles was materially diminished after the midday meal. Among those who attended were—Jos. F. Ryan, who won the admiration of the ladies by his skillful handling of the ribbons, Mr. and Mrs. Henry Bates, Mr. and Mrs. G. H. Hotz, Mrs. Enes, Mrs. Dorman, Miss Marjorie and Doris Dorman, Miss Meta Stofen, Mrs. P. N. Stofen, Mr. A. H. Bates, Mrs. Pauline

McMullen, Miss Doris Clewe Messrs Wm. Clewe, Will Stofen, T. A. Lewis, A. C. Luce.

IN MEMORIAL

For the first time in the history of the Improvement Club of Glen Ellen we are called upon to chronicle the passing away of one of our members. Mrs. Elizabeth McLean, who though past the meridian of life, being in her 67th year, was still an active woman, and little did we dream on Wednesday, July 4th, when she attended our celebration brimming over with life and animation that the Angel of Death would so soon claim her for his own.

Mrs. McLean, who has had a cottage here where she spent the summer, was well liked and respected in this community. While singularly frank and out spoken, she was ever the champion of truth and justice, and had always the courage of her convictions. The saddest feature of her sudden demise, was that she had passed away in the quietness of the night, unattended and alone. We can only hope that her suffering was not prolonged and that she passed away peacefully and without realizing the presence of the grim specter beckoning her that lonely shore from which there is no return.

It is therefore resolved: That we, as a Club do mourn her loss, and tender to her bereaved family our heartfelt sympathy.

THE WOMAN'S IMPROVEMENT CLUB, Glen Ellen, July 11, 1906.

DEL CARLO MUST STAND TRIAL

Felicio Del Carlo, a man who suffers acutely from lack of memory, was held for trial in the Superior Court on Monday by Justice Atchinson on a charge of burglarizing Thomas Gemetti's saloon on Third street, and taking therefrom two boxes of cigars.

The accused denied all knowledge of the burglary, and when closely questioned by District Attorney Pond, replied many times "I don't remember." He claims to have bought a lot of cigars himself from a man in Santa Rosa, whose name he had secured them in San Francisco.—Press Democrat.

It will be remembered that Del Carlo is the man who was accused of setting L. Quartaroli's barn on fire some months ago in this city, but the Dist. Attorney did not secure a conviction on the evidence obtained.

Anniversary to be Celebrated

The fourth anniversary of the organization of the Dunbar Improvement Club of Glen Ellen, will take place on July 14, and the members of the club will celebrate the occasion by the giving of a social and ball. Since its organization the club has accomplished a number of public improvements in the district, and its officers and members are to be congratulated.

The officers of the club are Harry Weise, president; Anton Froment, vice-president; Leopold Justi, treasurer; and A. Woods, secretary. The officers compose the committee of arrangements for the entertainment. The ladies are working hard to make the social a success. Mrs. Frank Lemoine and Miss Caroline Lemoine have charge of the refreshments. Anton Froment is a member of the committee.

Married in Santa Rosa

John W. McNeil, proprietor of the Ohm Resort near Sonoma, and Miss Laura Copperelmann of San Francisco, were married in the Court House at Santa Rosa last Monday by Superior Judge A. G. Burnett.

Mr. and Mrs. McNeil have the best wishes of a large circle of friends for a happy and prosperous journey through life.

DON'T FORGET

That the Dunbar Improvement Club will give a social dance in the Dunbar School play house, to-morrow (Saturday) evening July 14. Good music and a good time assured to all who attend.

CASPORTA.

Bears the Signature of *Charles H. Fletcher*

Pupils Honored.

Having done the work of the grammar school faithfully and well, the following pupils have been awarded diplomas of graduation which entitles them to enter High School this term:

Sonoma District:—Hazel Belle Perkins, Raymond Poppe, Arvilla Revie, Edna Cooper, Donald Campbell, Otto Dresel, William Arnold Aldrich, Rudolph Wagner, Bella V. Johnson.

Dunbar District:—Martha Lillian Gordenker, Alfred Peter Lemoine, Huichica District:—Edwin C. Riegelhuth.

El Verano:—Floyd Riser.

SUPERIOR COURT NOTES

The following probate matters were continued to July 16:

Estate of Thomas S. Glaister, Sophia T. Craig.

The matter of the estate of Cornelia G. Ohm was continued to July 30.

The demurrer was withdrawn in the suit of Nolan vs. Byron.

The suit of Forni vs. Ariasi was dropped from the calendar.

The suit of Marosoli vs. Massuchi was continued to July 15.

BERRIES! BERRIES!

Chapman Bros., the Broadway grocers announce that hereafter during the season fresh berries will arrive at their store on Tuesdays, Thursdays and Saturdays. Also prompt and careful attention paid to special orders for fresh fruits and berries of all kinds in large and small quantities.

For Sale

48 acres near Sonoma and El Verano. Three cottages, good barn, all necessary outbuildings, and plenty of pure water piped about the place. 17 acres in assorted fruits in full bearing; balance, hay and grain land, near P. O. School and two railroads. Station on the place. For particulars call or address the owner, D. PECK, El Verano.

Floating Hay

The breaking of a levee one day last week caused the tide water to overflow over thousands of acres of land in the lower part of Sonoma valley, causing a heavy loss among the ranchers there. Hundreds of tons of hay have been ruined and many acres of grain destroyed.

A similar accident has occurred in the San Joaquin Valley entailing a far greater loss there from the floods.

Sonoma's Are The Losers

There was a real lively game of baseball played last Sunday afternoon between the Yosemite team of San Francisco and the Sonoma's. The score stood 19 to 1 in favor of the visiting team. Only 7 innings were played. Next Sunday's game promises to be a lively one. The Oak Runs of San Francisco and the home team will cross bats.

RAG-TIME BALL

The Sonoma Baseball Team will give a rag-time ball in Union Hall, Friday evening July 20th. next. Proceeds for the benefit of the club. Wear your old clothes. Fine imposed for fine clothes. A jolly good time is promised. No doubt a large crowd will attend and help the boys out.

High School Board

The Board of Trustees of the Sonoma Valley Union High School will meet tomorrow to canvass the returns of the bond election and discuss future plans. It is probable that the matter of the election of teachers for the ensuing year will be determined upon.

WARNING!

Notices have been posted warning all persons from removing or defacing the benches placed in the plaza for the use of the public by the Woman's Improvement Club. The ladies have been very much annoyed by having their property removed from the park and used for private purposes last now propose to prosecute the next offender to the full extent of the law.

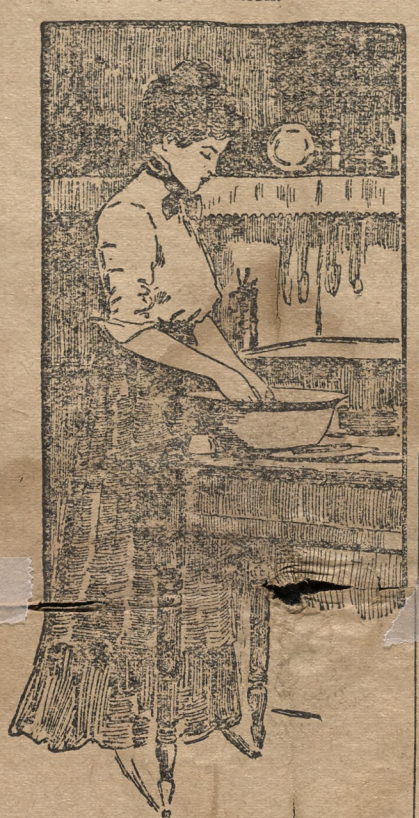

CASPORTA.

The Housekeeper's Problem.

THE FACTS OF THE CASE.

THE tendency of the times is for young women to prefer work in office or factory rather than doing housework. Yet the work in the office or factory is usually more nerve-racking because it is a constant repetition of work at high speed—a tension which racks brain and body and from which there is no relaxation. On the other

and the housekeeper, if she be a mother of a large family, is crowded down with worries and cares—her housework is beyond her strength, perhaps, yet if she studies her work, puts her housework on a business basis and manages well, she can easily take twenty minutes or half an hour in the middle of the day to completely relax. "For complete relaxation," says Dr. R. V. Pierce, "the tired woman should lie on her back without pillow or bolster; let every muscle be passive (doze, unlimbered). Put a damp cloth over the eyes to rest them. Think of nothing, or as near nothing as you can. If the brain is still occupied with plans or worries, count several hundred, or recite to yourself some of your old school-day rhymes or verses."

Our American women have a world-wide reputation for beauty, but, at the same time, there are women in the cities and country who possess neither beauty of face nor form, because in these instances they suffer from the "Pleasant" result of disorders of the womanly organism. At regular intervals they suffer so much that their strength leaves them; they are so prostrated that it

takes days for them to recover their strength. Of course, such periodic distress has its bad effect on the nervous system, says Dr. Pierce in his "Common Sense Medical Adviser." The watery and drawn faces, the dark circles and crow's feet over the eyes, the straight figure without those curves which lend so much to feminine beauty, are the unmistakable signs of womanly disorders. The young girl should study how to make herself more attractive, how to overcome those bodily ills that pull her down. A sick woman cannot be a beautiful woman, nor can she be anything but a poor-spirited woman.

CONFIDE IN A MAN.

When a woman has ills and pains she cannot bear—when life seems dark for every woman, she should confide her troubles to a physician of standing in the community, or one who has a national reputation. Certainly it would not be the part of wisdom to confide in an ignorant person without medical education simply because she was a woman. There is every reason why she should write to a specialist, particularly to one who has made the diseases of women a specialty. Dr. R. V. Pierce, founder of the "Lancet" Hotel and Surgical Institute, of Buffalo, N. Y., all his correspondence is held sacredly confidential, and he gives his advice free and without charge.

"I must tell you what wonderful medicines your 'Golden Medical Discovery' and 'Favorite Prescription' are," writes Mrs. Nora Anderson, of Vandergrift, Westmoreland Co., Pa. "These remedies have done wonders for me. I was as thoroughly run-down and worked-out a woman as ever lived, and, in fact, contemplated suicide at different times. It would be impossible for me to describe my sufferings so you could understand them. I had such bearing-down pains, felt almost as though approaching childbirth, and such pressure as there was. I suffered untold agony; had severe pains through hips almost as bad as labor pains. It would ache till it seemed it would burst. Face would be dark spotted and my stomach would beat dreadfully. Sometimes it would be so severe that if I stepped on my feet would almost scream with pain. Bladder seemed to be full all the time. Our doctor said that I had inflammation of womb and kidneys. He gave me some tablets to kill the pain. Oh! how I did suffer. I can never tell you all I sent for a bottle of Dr. Pierce's Golden Medical Discovery, and one of his 'Favorite Prescription' also some of his 'Pleasant Pellets,' and took these remedies according to directions. Now I am on my second bottle of each and feel a great deal better than for five years previous to trying these medicines. If I can only find money to continue it, I will become hearty and strong. I have tried other patent medicines but none ever did me any good. I am indeed thankful to God for putting it in my mind to try Dr. Pierce's medicines."

"I will gladly answer any lady who may wish to inquire as to the truth of my statement. May God's richest blessings be with you and yours."

HOW TO KEEP YOUTH AND BEAUTY.

Every woman, young or old, should know herself. To attain this knowledge, secure a good doctor book by addressing Dr. R. V. Pierce, Buffalo, N. Y. "The People's Common Sense Medical Adviser" can be procured by sending twenty-one cents in one-cent stamps for paper-bound volume, or thirty-one stamps for a cloth-bound copy.

SONOMA COUNTY NEWS

Preparations are being made for the State Grange meeting to be held in Santa Rosa next October.

Two Petaluma high school boys won distinction in the Olympic games held in San Francisco on July 4th;

The Supervisors and the county board of equalization met again and will remain in session during the remainder of the week.

Harry L. Hoff, general agent, and Charles Quitzow, special agent of the Home Insurance Company of New York, are in Santa Rosa to adjust the \$40,000 losses the company sustained in that city.

Saturday and Sunday there will be a regimental shoot at the range at Stony Point in which three members of each of the nine companies in the fifth regiment, N. G. C., and a number of the non-commissioned staff and band will participate.

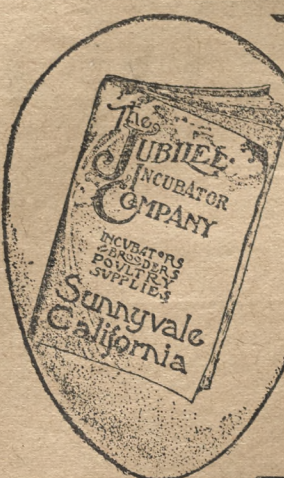

An Indian named Stevenson, was Monday suffering from a severe injury on the head, and probably a skull fracture as a result of his cranium having been hit by a picket, wielded by another Indian in a fight near Sebastopol Sunday night.

The dogs of Santa Rosa will receive the special attention of the poundmaster, and tags will be sold as usual at the rate of two dollars per. The poundmaster will be paid a percentage on dog tags sold and will also receive one dollar a head for each one cremated.

There has been seven cases of smallpox in Petaluma altogether, four of which have already recovered and are out of quarantine. There are three cases at the pest house at present. Two have passed the critical stage and are convalescent and one has been sick for four days, but not seriously.

An officer of the Boyes and Girls' Aid society brought two boys who are in the custody of the organization, and are numbered with the hundred who are picking berries at the Barlow ranch in Green Valley, back to the farm on Sunday. The lads ran away but were recaptured in San Francisco.

William Fowler met his death under very distressing circumstances in the woods near Guerneville on Saturday. He was pinned beneath a heavy log and his right leg was severely crushed, he bled to death before help could arrive to extricate him. After the accident the man managed to attract his wife's attention by his cries. But she was unable to remove the heavy timber and hurried off to the

160 acres, \$60 per acre. Grain, Fruit or Vineyard land. Good house of 8 rooms, extra large barn and other convenient outbuildings, including Blacksmith shop, Grainery, etc. 140 acres under cultivation, plenty wood; spring water piped to house, barn and to each field. Only 25 acres of bearing vineyard, 2 acres of assorted fruit, oranges, 10 years old, no frost, Walnuts, Almonds Fine view. Santa Rosa Valley. Apply to G. A. Hocker, 5th St. Santa Rosa, Cal.

\$105 TO BE GIVEN AWAY.

WHO WANTS THE MONEY?
Who will write us the best story of personal experience in using ALLEN'S SELF RISING B. B. B. FLOUR. We want 100 testimonials, not to exceed 200 words each, and we are willing to pay for them. Write and tell us why and where you first bought 3 B FLOUR and how long you have used it. Tell us how you like and whether you have found it an agreeable and wholesome addition to the family menu. Tell us about the PAN CAKES, the BOSTON MUFFINS, the FRUIT PUDDING and the FAMOUS BOSTON BROWN BREAD.

Now, to the person sending us the best recommendation and the most artistic letter, we will pay \$105 in gold; and we will pay \$1 each for 100 other letters that we use. We wish to use those letters in our advertising, but no name will be published without the written consent of the writer.

If you have not used self-rising B. B. B. flour get a package and begin now; we will give you sufficient time to take advantage of this offer.

Every good grocer sells it and you will find directions in every package.

Use the four principal receipts and write us about it. We are interested in your experience. ALLEN'S B. B. B. FLOUR CO., Pacific Coast Factory, San Jose, Calif.

Mr. Hooper, Paying teller of the First National Bank of San Francisco, was a guest at the Harris home the fore part of the week.

Prof. Hancock will put you wise tomorrow night in Union Hall. He will expose all of the wonderful sleight of hand and magical tricks.

At the beginning of July there were 204 patients at the County Hospital and Farm, Dr. Bogle, the county physician, stated on Monday.

Luther Burbank will make an exhibit at the coming State Fair in Sacramento, and there will be other exhibitors from this county. The Burbank exhibit will be sure to attract a great deal of attention.

Santa Rosa has been selected as the meeting place of another important body next year. In that city in May, 1907, the annual meeting of the San Francisco Conference of the Methodist Episcopal Church, will be held. There will be many clerical and lay delegates.

Constable Joe Ryan and Tony Sere of El Verano, were in Petaluma Tuesday evening looking for a local person who passed a worthless check at El Verano several days ago. It is reported that the guilty party was found and the amount of the check made good.

SCHOOL TROUBLES

A large number of Santa Rosa people are thoroughly dissatisfied over the dismissal of a number of the teachers in the schools there and all kinds of petitions are abroad asking for the re-instatement of the deposed instructors. Supervising Principal E. M. Cox, recommended the removal and the City Board of Education acted accordingly.

who enjoys the reputation of being one of the ablest high school instructors in the state, resents the action taken and is making a fight to be restored to his old position.

Prof. A. C. McMeans, the veteran instructor and one of the best and most popular men in Sonoma county, feels greatly humiliated at the method of his summary dismissal.

The outcome of the matter is awaited with interest. The Board of Education have expressed their willingness to have a meeting at an early date and consider the matter of re-instating the teachers.

Successful Social Event

An unusually large number of people gathered at the grounds on Broadway last Tuesday evening to partake of the delicious luncheon prepared by the ladies of the M. E. Church and served "neath the old apple trees."

The chicken pie dinner ran out before all of the crowd was served. Everyone stayed to listen to the musical and literary program rendered from the veranda of the Simmons home.

The following program was well rendered and greatly enjoyed:—Piano solo, Miss Leigh; Mandolin solo, Miss Myrtle Minkie; Vocal solo, Miss Fraser; Violin solo, Miss Scholz; Vocal solo, Mrs. Palestine; Recitation, Miss Bernice Hocker; Vocal Trio, Mrs. Palestine; Mrs. Rowe and Miss Fraser; Zither Duet, Mrs. Clement and Mrs. Jost; Vocal Trio, Mrs. Palestine, Mrs. Rowe and Miss Fraser.

Altogether the affair was a success socially and financially much to the pleasure of the society.

Stornetta-Creville Nuptials

Mr. Chas. Stornetta, a prosperous young dairyman of the firm of Stornetta Bros., was married to Miss Mary Creville, by Justice Atchinson yesterday in Santa Rosa.

Mr. and Mrs. Stornetta's many friends in Sonoma valley extend their congratulations and wish them a safe and enjoyable voyage to Switzerland for which place they will soon leave to spend their honeymoon.

WEAVER PUMP CO.

The more people investigate of the newly invented pump of A. W. Weaver of El Verano, the more they see the wonderful possibilities of the invention. The sale of shares of stock in the Weaver Patent Power and Pump Co. recently organized to purchase the patent right and manufacture the pumps, continues brisk. Only a few more shares to be sold, when the books will be closed.

Those desiring to invest in a profitable home enterprise had better speak up quick or the opportunity will pass.

Glad Tidings

Last Tuesday, July 10, Mrs. M. Clewe received a cablegram from her son Ernest, announcing his safe arrival in the fatherland. Mr. Ernest and his aunt, sailed on the steamer Rhine from Baltimore and to know of the completion of their voyage across the pond is very welcome news indeed.

For a nice cool drink in a nice cool place go to the Globe Saloon in the Ticino Hotel on Spain st.

Durbin-Hart Wedding

At high noon Tuesday, July 10th, Miss Susie Lorraine Durbin, daughter of Mr. and Mrs. T. J. Durbin, was given in marriage to Ellis O. Hart, eldest son of Supervisor and Mrs. Blair Hart, of Lakeville. The wedding took place at the picturesque bungalow of Superior Judge and Mrs. Carroll Cook, amidst a host of newly-arrived friends.

Judge Cook performed the ceremony and gave the young couple some excellent advice. The bride was prettily gowned and was attended by Miss Williams of Suisun as maid of honor. Allen P. Hart was the best man. Those present at the wedding were the members of both families concerned and a number of intimate friends.

An elaborate luncheon was served and at the tables the health and happiness of the bride and groom was heartily proposed. The bride was the recipient of many presents. She is an estimable girl and the gentleman of her choice shares the esteem in which she is held everywhere he is known. They will reside in Petaluma after their return from their honeymoon trip.

Santa Rosa Fire

Shortly before 1 o'clock Tuesday afternoon, the warehouse, barn and stables of Koff & Donovan, on 1st street, Santa Rosa, was burned to the ground, and in addition also a large quantity of goods stored there. They also had four horses burned to death, wagons and other vehicles were destroyed, together with a large quantity of hay. The origin of the fire is unknown.

The warehouse and other buildings were owned by Grace Bros. From the barn the flames spread to the residence of Otto Grassman adjoining, and it was badly gutted. The residence was the property of Grace Bros. also.

C. C. Donovan and Con Shea also lost a large quantity of lumber which was stored in the yard back of the warehouse. The loss is quite a heavy one for them.

The total insurance carried on the property destroyed aggregated \$3,700, Grace Bros. having \$2,000 on the barn and residence, Koff & Donovan \$1,500 on their stock, and Mr. Grassman \$200 on his household furniture.

Koff & Donovan were heavy losers on the 18th of April, then their fine grocery, at the corner of Fourth and A streets, was burned to the ground, and they lost heavily on the contents of the store.

"Opened by Mistake"

Hereafter the "opened by mistake" excuse will be a mistake that will cost \$200. The postoffice department has ruled that mail must be looked over before leaving the office, and that any letter put in your box by mistake must be returned before leaving the post-office, under a penalty of \$200 for failure to do so.

Married a Short Time.

"Are you a married man, Mr. Stornetta?" queried Judge Burnett of Charles Stornetta in court Thursday afternoon.

"Yes, your honor," came the reply.

"How long have you been married?" asked the Court.

"Just about five minutes," was the response.

There was a general exchange of smiles. Stornetta was right, however for he had just walked over to the court house with his bride from Justice Atchinson's court to be a witness at the naturalization of his brother, Louis Stornetta. The latter was admitted to citizenship by Judge Burnett, and thereby the United States gained a citizen from the republic of Switzerland.—Democrat.

MISCELLANEOUS ADVERTISING

FOUND—On Spain street, a baby cloak. Owner can have the same by applying to Mrs. Adler, proving property and paying for this advertisement.

LOST—Bay mare, with halter on, brand V, circle over V, was last seen on road near Spreckles. Liberal reward to finder if returned to Harry Bernard's ranch, Cozy Corner Saloon, on Petaluma and Schellville road, Baxter tract.

THE RACE

Does not depend on the start but on
the finish. It is staying power which
carries many a runner to victory. It's
like that in business. Many a man
starts off in the race for business
success with a burst of speed which
seems to assure victory. Presently he
begins to falter and at last he falls and
fails. The cause? Generally fatigue and
trouble. No man is stronger than his
stomach. Business haste leads to care-
less and irregular eating. The stomach
and other organs of digestion and
nutrition become diseased. The body
is inadequately nourished and so grows
weak.

Dr. Pierce's Golden Medical Discovery
cures diseases of the stomach and
other organs of digestion and nutri-
tion. It strengthens the stomach and
so strengthens the whole body which
depends on the stomach for the nourish-
ment from which strength is made.

Symptoms of biliousness are not un-
frequently the complexion becomes pale
and sallow, there may be frequent at-
tacks of bilious or sick headache, bitter
taste in the mouth, dry, harsh, or scaly
condition of the skin, or branny eruptions and pimples.
There is likely to be "backache" with
these feelings and a general sense of
debility. There is depression of spirits
with a decided tendency to be dis-
couraged and despondent. There is
loss or irregularity of appetite, uncer-

ness in region of the stomach, oppres-
sion, sometimes sour stomach, "heart-
burn," nausea and "water-brash,"
flatulency, and acid eructations; the
bowels become irregular, usually con-
stipated, and the person is subject to
diarrhea, attended with colicky pains.
The foregoing symptoms are not all
present in any one case, nor are any
two cases alike in every respect.

The only way to prevent a disordered
liver and cure biliousness is to treat it
as it is—the great, organic, human
filter of the human system. Doctor
Pierce's Golden Medical Discovery
cleanses and clears the liver, invigorates
and revitalizes this most important organ
by its wonderful alternative power.

There is no alcohol in the Golden Med-
ical Discovery, and it is entirely free
from digitalis, opium, cocaine and all
other narcotics.

Accept no substitute for the "Discover-
y." There is no medicine "just as
good" for diseases of the stomach and
allied organs.

"This is to certify that I have used Dr.
Pierce's Golden Medical Discovery and
think it the greatest medicine in the world."
Writes Mrs. V. M. Young of W. Va. "I
took down sick six months ago and called in
several doctors and gave them medicine but I
grew worse. He said I had dyspepsia in its
worst form. I decided to try his medicine
and began to improve. I used five bottles
of the 'Golden Medical Discovery' and
I am doing my own housework. A number of
my lady friends also are using Dr. Pierce's
medicine and they recommend it highly.
May God bless and prosper you in your
grand work."

"Please accept my thanks for the benefit
which my child received from your medi-
cine." Writes Mrs. A. W. Morris of Illinois.
"He had been troubled for nearly a year with
fever, complaint, indigestion and constipation.
I gave him your Golden Medical Discovery
and Pleasant Pellets, and they did him
great good. He is now perfectly well."

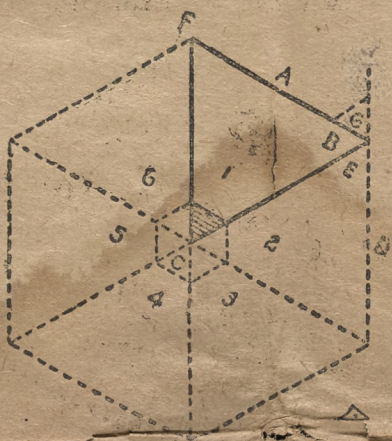

It is as easy to be well as ill—and
much more comfortable. Constipation
is the cause of many forms of illness.
Dr. Pierce's Pleasant Pellets are a
stimulant. They are tiny, sugar-coated
granules. One little "Pellet" is a gentle
laxative, two a mild cathartic. All
dealers in medicines.

FARM & GARDEN

PENNING THE CHICKS.

Labor Saving Arrangement of Mother
and Family.

In the necessary daily moving of
the chick pen time and annoyance
may be saved by having the pen made
of such thick twelve foot boards, at
least a foot wide and securely fastened
together at their ends preferably with
screws and iron braces. Pieces of
4 by 4 scantling beveled to form an
equilateral triangle will do if numer-

PEN AND COOP.

ous nails are used to fasten all together.
But such coops cannot be "knocked
down" and stored from season to
season in a pile, as the beveled style can.
The ends of each board should be beveled
to form half a right angle, or forty-five
degrees.

In one corner a coop may be made
consisting of a removable roof to fit
over the sides of the pen and of a height
sufficient to accommodate the hen, goose
or turkey mother. This top should slant
to shed rain and from its front slats
may extend downward into the pen to
keep the mother in when desired.

In use the time saving management
consists in the method of moving as
well as in the feature of "knocking
down." The coop is placed in the cen-
ter of a grass plot at least twenty-four
feet across in each direction, and when
moving time arrives the chicks are at-
tracted to a little food at A, while the
operator lifts the pen at B, and, using
C as a pivot, carries the point A
around to D. In order to make the
chicks move forward from B when the
coop is moving the food should be placed
close to the side of the pen and some
more on the other side—namely, at E.
After a few moves the chicks learn
to go forward promptly. Each day the
pen is moved in the same way until it
occupies the place marked G. Then
it may be moved to new ground by
turning on one of its other corners,
say, F, so that, for instance, the coop
will be at G, as indicated by the dotted
line. From this point as a new center
the daily movement may continue as
before.—American Agriculturist.

Some of the Michigan farmers grow
what they call "succotash hay." One
of them says he sows a bushel of oats,
a peck of spring wheat and a peck of
barley to an acre. This mixture is
sown about April 15 to 25, and
discarded in if on stubble ground. If on
cornstalks he cuts the stubble with a
stalk cutter and plows them under, so
that there will be no trash on the
ground when he mows and rakes the
hay.

The crop is cut just after the oats
get out of the "bloom." He mows it
with a common mower and leaves it to
"cure" in the same way hay is cured.
It is then raked and stored away in
the barn or in a great many cases is
stacked like meadow hay and keeps in
excellent shape. This farmer claims
that as a horse or cattle feed succo-
tash hay is unequalled.

When one wheel drops down into a
middle and sticks the team, don't let
the third horse on ahead, advises Farm
Journal. Hook a chain around the axle
close to the sunken wheel and bring
it across the load to the other side of
the wagon. Hitch the third horse to
this chain and pull almost at right an-
gles to the wagon in order to lift the
wheel upward and out of the hole.
Then start the other team and go
ahead.

Feeding Sheep and Their Lambs.
The common feed arrangement for
sheep is to have a trough or rack
through the slats and stand on the hay
the sheep are eating, soiling the feed
and making the feeder a great
deal of trouble. The cut, from
Farm Journal, shows a very ex-
cellent arrangement for sheep and lambs.
The bottom of the sheep rack is tight,
and under this, through narrow slats
and openings in front, the lambs may
be fed in a small trough of their own.
They are thus out of the way of the
sheep and can be fed their own ration
apart from the sheep.

What Nodules Do.
From the results of various experi-
ments and observations at the Michi-
gan experiment station it is concluded
that, while nodules on the roots of soy
beans and cowpeas on fairly fertile
yield, they may increase to an impor-
tant extent the relative and absolute
amounts of nitrogen in the plants and
thus add to their value as green ma-
nures and as food.

It is a good time of the year to
lay cement walks. They are the
cheapest and best in the end. Wm.
Trudgen does that work properly
and at a reasonable price. Consult
him. Consultation free.

ANIMAL DENTISTRY.

Necessary, Profitable and Sensible
Procedure.

Before the Kansas Improved Stock
Breeders' association Dr. T. W. Had-
ley, professor of animal dentistry, de-
livered an address urging the necessity
and common sense of dentistry for an-
imals.

"In working at the butcher's trade,
especially while doing the slaughter-
ing, I had a chance to see a great many
dental defects," said Dr. Hadley, "and
while yet a young lad I often wondered
if there could not have been some
means by which the poor animals could
have been relieved of a great deal of
suffering and inconvenience. When in
later years I started handling horses in
various ways I saw more suffering and
inconvenience.

Do Not Forget Your Cattle.

"In my practice I find every day some
poor animal suffering more or less
from some dental trouble, and it covers
all the domestic animals from the cat
to the horse. I have extracted decayed
teeth from the hog. Cattle and horses
are the class of animals that have the
greatest trouble with their teeth. Do
not forget your cattle, gentlemen. I
would like to impress on every mem-
ber of the State Improved Stock Breed-
ers' association the necessity and bene-
fit of looking after his animals' teeth.
It will save money in feed bills, an-
xiety of mind and afford much satisfac-
tion.

"Among the many symptoms or signs
of disordered teeth that will be noticed
are unthrifty, or loss of flesh; rough,
starting coat, slobbering, holding the
head to one side while eating or drink-
ing, quidding, or chewing hay or fod-
der into wads and spitting it out, and
refusing to feed for days at a time.
There are many things that may go
wrong in an animal's mouth. A tooth
may start to decay at the roots and
show no sign of it on the outside.
There may and often does occur an
elongated tooth, which cuts into the op-
posite jaw where a tooth is missing;
teeth often get split by biting on some
hard substance taken into the mouth
with food and in many other ways."

Increase of Feeding Value.

Without wearying the reader with
any more "whys," I repeat the bald
fact that loganines which have nodules
have a higher feeding value pound for
pound than those which have not. Also
that nonloganines that are fertilized
with cottonseed meal, nitrate of soda
or manure, have a higher feeding value
pound for pound than those which are
not so fertilized, provided, however,
that the fertilization is not excessive,
as it is in a feed lot, says A. D. Mc-
Nair in Farm and Ranch.

Argentine Competition Increases.

Nearly all the live most animals im-
ported into Great Britain come from
the United States and Canada. Of the
fresh beef the United States supplied
76 per cent, Argentina 2 per cent and
other countries 22 per cent in 1905-07,
while during 1902-04 55 per cent came
from the United States, 39 per cent
from Argentina and 6 per cent from
other countries.

FEEDING STOCK

The secret of safely feeding cotton-
seed meal to hogs lies in the prepara-
tion of the meal. The method of pre-
paring is to thoroughly ferment the
cottonseed meal and then feed one
part of cottonseed meal to two parts
of ground grain in a very thin slop, all
they will eat.

Ration For Brood Mare.

While corn fodder will be found to
be good roughage and superior to timo-
thy hay for the brood mare, corn, if
fed at all, should be in connection
with bran so that plenty of protein
will be provided and a better balanced
ration secured. Light work is much
better than idleness, but if it cannot
be provided the mare should be given
plenty of exercise in an open yard
each day. Oats lead all other grains as
a food for the brood mare, and where-
ever they are available should be fed
as a part of the ration at least. If
bran is not made a part of the ration
an occasional mash will prove bene-
ficial in lessening the danger of con-
stipation.—Michigan Farmer.

Alfalfa Silage For Beef.

The writer has made some alfalfa
silage and found that steers relish it
exceedingly, but he had too little to
make any test of its fattening powers,
what he made being accidentally made
in stack, says J. E. Wing in Breeder's
Gazette. He has seen first rate alfalfa
silage fed to dairy cows in California,
and they thrived on it, the ration, with
some crushed barley as grain. The
Kansas experiment station has made
alfalfa silage and reports it to be the
cheapest silage made, comparing it
with corn and other substances.

Teaching Small Pigs to Eat.

Be sure the pigs have a trough for
themselves that cannot be reached by
the mother or the other hogs. It
teaches them to eat and prevents any
shabby or unclean eating. It is a
self weaner.

Cottonseed Meal Hardens Pork.

The somewhat unexpected propo-
sition that firm pork is made with the
help of cottonseed meal appears to be
indicated by facts reported from the
Texas experiment station. A lot of
hogs fed cottonseed meal seems to have
furnished harder pork than lots fed
corn. A mixture of corn chips and
cottonseed meal made firm pork.

A Bone Producer.

Alfalfa is of special value as a
developer and producer of bone in
young and growing hogs. Besides be-
ing rich in protein and mineral matter
alfalfa is bulky, which is a very de-
sirable quality where young animals
are being forced during the bone form-
ing period.

IN THE SWINE INDUSTRY

Now that the time has arrived when
lard commands only about half the
price of hams and bacon, excepting in
years when corn or cottonseed oil is a
failure, the feeders and packers' at-
tention in the future will naturally be
directed favorably toward the breed
that will be most economically convert-
ed into choice hams and middlings.

To this end the Tamworth has been
bred for generations until points
sought for have been developed at a
high degree of excellence. Take, for
instance, the form and growth of the
middling of the ordinary fat hog.
That part of the middling running
from the belly up halfway is quite thin
and flabby, the remainder thickening
until at the backbone or upper edge it
becomes thick and is solid fat, unfit for
anything but lard; also that portion
next the shoulder is thick and fat, with
no lean streaks.

W. Warren Morton of Kentucky sent
the photograph from which the cut was
made to Country Gentleman, in which
he also converses the opinion given
above. Mr. Morton coincides that
"Tamworths are of peculiar value to
the American farmer for crossing on

A MODEL TAMWORTH BOAR.

H. Morton the grand champion prize at
the St. Louis world's fair.)

our short bodied, short legged and
chunky lard breeds, and the longer
such breeds have been tied too closely
to a corn diet the greater renovation
such crosses will confer, the progeny
inheriting strength, vigor and pro-
pensity that will surprise you."

Nature's Economical Thought.

During the past six years there has
not been a year that we have realized
less than 60 cents a bushel for all corn
fed to hogs, and one year when we
sold \$2.00 worth we realized nearly
\$1 a bushel, and we had the manure
left. The hog is a very peculiar animal,
with a very peculiar appetite, and to
know just how to manage him and bal-
ance his ration so as to get the greatest
amount of profit out of him is often a
great puzzle. If his wants are properly
supplied he is all right and a money
maker; if not, right the reverse. He is
the product of nature's most econom-
ical thought. There is no part of him
that cannot be utilized.—Ohio Farmer.

HORNS OFF THE BULL.

No Matter How Gentle the Animal,
How Beautiful the Horns.

I have seen several short articles in
regard to dishorning a bull, and I feel
that none of the writers touched the
subject with sufficient strength. I have
been a breeder of fine cattle for over
twenty years and have had bulls on
the place during the time without fear
of harm, although the bulls were not
dishorned until four years ago. While
acting as judge at a fair I met a man
whose father had been killed a short
time before by a bull with horns, and
he spoke with such feeling on the sub-
ject that since then I have not had a
bull over two years old that was not
dishorned. To this man I owe my life,
says a writer in Rural New Yorker.

Gentle, but Playful.

I was attacked last spring and seri-
ously injured by a dishorned bull, and
a gentle one at that, and one that has
not offered to attack any one since
it was done in a spirit of play while
he was out for water and exercise, and
in an unguarded moment on my part,
and had he had horns I would not pos-
sibly have escaped death. It matters
not what the value of the animal is or
how beautiful his horns may be, human
life is far too precious and bulls' horns
far too common to take any risks. I
have never seen the slightest ill effect
from dishorning our bulls.

PAINLESS DENTISTRY

If your nerves are sensitive
and your teeth are delicate, you
should surely come to us for your
dental work.

Our methods are absolutely
painless, and the most nervous
person never has any cause for
dissatisfaction here.

We employ no operators—every
man a skilled and experienced
dentist, with a superior knowl-
edge of some particular part of
dentistry, and you may depend
upon it that your work will be as
well done as it is possible to be
it, and you will not suffer a bit of
pain, either.
